## **What are Ejlal Home Oral Health Care Services (EHOHCS)?**

These are special services developed to provide oral screening, identification of dental treatment needs and referral support for our elderly from the comfort of their own home.

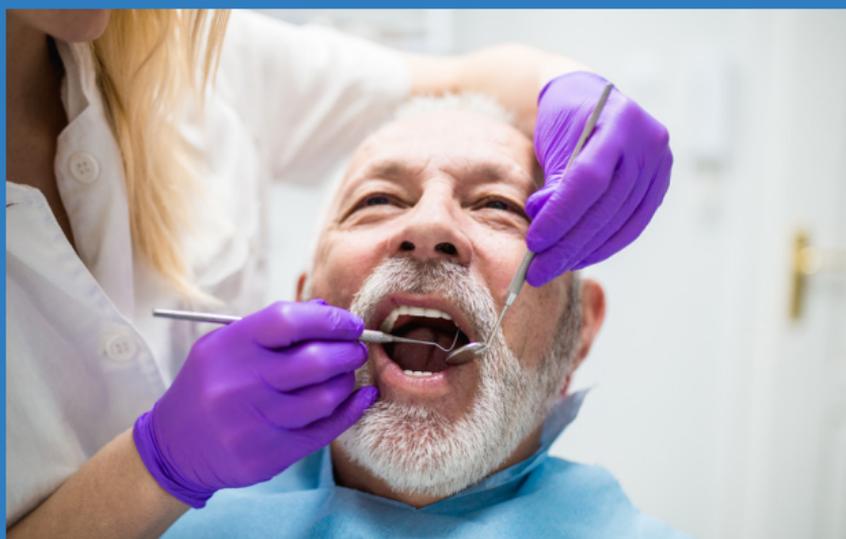

## **Why does elderly need EHOHCS?**

Elderly people generally experience dental problems like toothache, tooth decay and gum diseases which affects their day-to-day life.

They may also neglect their oral health, which may lead to advancement of oral diseases.

Ejlal Home Oral Health Care Services will provide easy referral for dental treatment besides providing Oral Health Education to the elderly, their family, or caregivers that will help them in maintaining their oral health.

## **How to access Ejlal services?**

–Through PHCC's Home Health Care service at the Health Centres.

### **What does the Ejlal team do in home?**

- Team will arrange for oral examination of elderly people at their own home.
- They will provide Oral Health Education and Oral Hygiene Instructions which are personalized to each elderly's need, and also train the elderly, family members/ home caretakers as required.

### **Who will benefit from Ejlal services?**

- All the elderly registered for PHCC Home Health Care Services can receive these services.

### **How to access Ejlal services?**

- Through PHCC's Home Health Care service at the Health Centres.

## **How can the elderly prepare for Ejlal team's home visit?**

- Accurate address, name and contact number of the responsible family member should be provided to PHCC's Home Health Care team during the initial telephonic consent call.
- Ejlal dental team will make prior contact to confirm the appointment date and time.
- Responsible family member should be present on the day, date, and hour agreed upon with the Ejlal dental team.
- In case of postponement/inability to keep up the appointment the Ejlal dental team should be informed immediately.
- For the dependent elderly, the responsible family member or caretaker, who routinely provides assistance and manages the elderly should always be present during the Ejlal home visit.
- If elderly is unable to provide consent, the responsible person should provide informed consent on their behalf.
- A suitable room, with access to water and electricity should be provided for the Ejlal dental team to set up the Mobile Dental Clinic. .
